

CapShot: The On-Demand IT Capacity Service

The Ultimate
Solution for
Managing IT
Utilization.

Unisys

Today's IT Challenges

- Growing volume of IT related data
- Increasing Customer and User Demand
- Changing Business Requirements effecting SLA's
- Impact of Government Regulations
- New Business Initiatives increasing system demand
- Reduced Budgets – Limited Resources
- Increased Complexity – Lose of Control

Is your IT Management Asking?

- Will our current system handle future growth?
- How can we optimize processing power and continue to reduce cost?
- Does our system utilization meet our compliance requirements?
- Are we able to react to abnormal performance before it becomes a problem?
- How does our system perform during peak periods?
- Do we understand our system enough to plan for our next technology direction?

Introducing CapShotSM

- Web Based, IT Capacity Summary Service
- CapShotSM provides a hosted IT capacity service that captures, analyzes and reports on the heartbeat of your Unisys system
- Gain valuable insight into your Unisys MCP system information, including Processor, Memory, and Disk Utilization, I/O and Metering usage – *Future releases will include OS2200, Windows, Unix, Linux*

CapShotSM – The Process

■ Step One

- Contact your Unisys Telesales Representative
- Issue Purchase Order to Unisys, include the following:
 - Unisys Agreement Number, Company Name, Address, Contact, Phone Number
 - Machine ID, Service Start Date, Responsible Party email

■ Step Two

- Email will be sent to the Responsible Party with the following information:
 - Web access codes, Software Packet and instructions for execution
 - After collecting system performance data, email information to CAPSHOT administrator

■ Step Three

- Performance information will be loaded into the CAPSHOT database for graph and report generation
- Email will be sent to the Responsible Party indicating graphs and reports are ready for viewing. Secure web access is available 7X24 and data access to the last 12 scans will be retained on-line.

ALL STEPS ENSURE COMPLIANCE, SECURITY and PRIVACY
